

Azad Senior College, AUSA.

The college conducts seminars, group discussion and brain storming sessions in for each class. Class teachers are appointed for this particular task. Students are motivated to give presentation or seminars on different topic of education and the issues of social importance are also addressed in this task. Group discussions on different topic are also conducted to demonstrate the abilities of the students and we try to enhance those abilities by proper guidance so that students can stand strongly in the competition. Brain storming session is one of the important tasks which need to be performed by the class teachers in every class. As students' strength is very high, it is necessary to arrange such sessions in each class. Class teachers start discussing on the important topics of the year and encourage students to express their views on the topic. In this way students are encouraged to express their opinion on the important topics and gain confidence from this special event which is organized in every class every year.

This seminar was conducted for the Intellectual Property Right. In this seminar all staff members and students were present.

Firstly seminar was started by speech of S.V. Suryavanshi Sir. He gives us various information regarding Intellectual property Right. Intellectual property Right (IPR) refers to the legal rights given to the inventor or creator to protect his invention or creation for a certain period of time. These legal rights confer an exclusive right to use inventor/creator or his assignee to fully utilize his invention/creation for a given period of time. IPR law includes patents, copyrights, trademarks, and trade secrets. All of these areas are related in that they deal with protecting products of the mind but in other way they are very different.
