Instructions for Economical Usage of Water in College

Everybody should conserve the water.

- Turn off taps as soon as you wash their hands.
- Make use of water efficient plumbing fixtures.
- Detect and repair leaks so that wastage of water will get reduce.
- Avoid flushing the toilet unnecessarily.
- Dispose of tissues, insects and other similar waste in the dustbins.
- Make use of broom to clean verandas and entrances.
- Use refillable water bottle and pour leftover water onto the garden/trees.

SAVE WATER SAVE LIFE

HOW TO SAVE WATER IN SCHOOLS

Tip 1: Put signs near the basins to remind students to turn off taps as soon as they wash their hands.

Tip 2: To save water in school, install aerators and water efficient plumbing fixtures.

Tip 3: Detect and repair leaks at schools so that wastage of water will get reduce.

Tip 4: Avoid flushing the toilet unnecessarily. Dispose of tissues, insects and other similar waste in the dustbins rather than the toilet.

Tip 5: Landscape with native, drought tolerant plants, and mulch regularly.

Tip 6: Stay informed about the latest requirements for water conservation.

Tip 7: Raise awareness of the importance of water by creating colorful posters on water use and water saving.

Tip 8: Always use a broom to clean walkways, driveways, and entrances rather than hosing off these areas.

Tip 9: Install water efficient devices at schools where appropriate – faucet aerators, high efficiency dual flush toilet etc.

Tip 10: Incorporate water conservation policy and procedures into training programs

Tip 11: Encourage students to use refillable water bottle and educate them to pour leftover water onto the garden.

Tip 12: (Implied from text) Use refillable water bottle and pour leftover water onto the garden/trees.

Water Management & Conservation Initiatives

Significance of Water Management & Conservation Initiatives

Good water management is helpful for any institution to reduce consumption and wastage of water which is becoming more relevant in line with climate change impacts. Communities, organizations, and individuals all have a responsibility to manage their water use to help create better irrigation control, cuts costs and wasted resources.

Water conservation is the practice of using water efficiently to reduce unnecessary water usage.

Following Initiatives of Water Management & Conservation are undertaken by Azad Senior College AUSA.

1. Rainwater harvesting
2. Tree plantation
3. Save water save life campaign
